

Additional Resources for PLAY 60 Play On Grant Application

Listed below are additional resources and ideas that you can use to support your grant proposal.

Play Streets

Have a great idea about doing an event or installation but not sure the best place to hold the event or installation? Closing down a street(s) for a day may be the solution!

First, find out if there is a Play Street programs in your city. Here is an example from San Francisco:

Play Streets creates a safe neighborhood place for kids to play by temporarily closing one block of street to car traffic. In communities that lack sufficient space for healthy activities, Play Streets open up space for recreational use, while allowing people to get to know their neighbors in a fun, safe environment. *From Sunday Street in San Francisco* <http://www.sundaystreetssf.com/play-streets/>

You can also check with your local Department of Transportation to find out what the process and timeline is for closing off a street. Typically it takes 30 days to secure a permit for a street closure.

You can also learn more about the Play Street Program at <http://ahealthieramerica.org/play-streets/play-streets-full/>

Creative Play Products

Are you looking for creative play elements to add to your event or program? Here are two types of products that you could include in your proposal:

Imagination Playground™

Imagination Playground™ brings innovative, loose-parts, to community settings around the globe. Imagination Playground™ is able to engage kids in creative play that is physically challenging and collaborative, fulfilling the needs of the whole child.
